### I want to give GM's time to post, but don't want to change their period access. What can I do?

There is a function in Advantage that allows you to set a grace period in which users can post invoices or valuation counts. This will not impact their security access in terms of posting outside a current period.

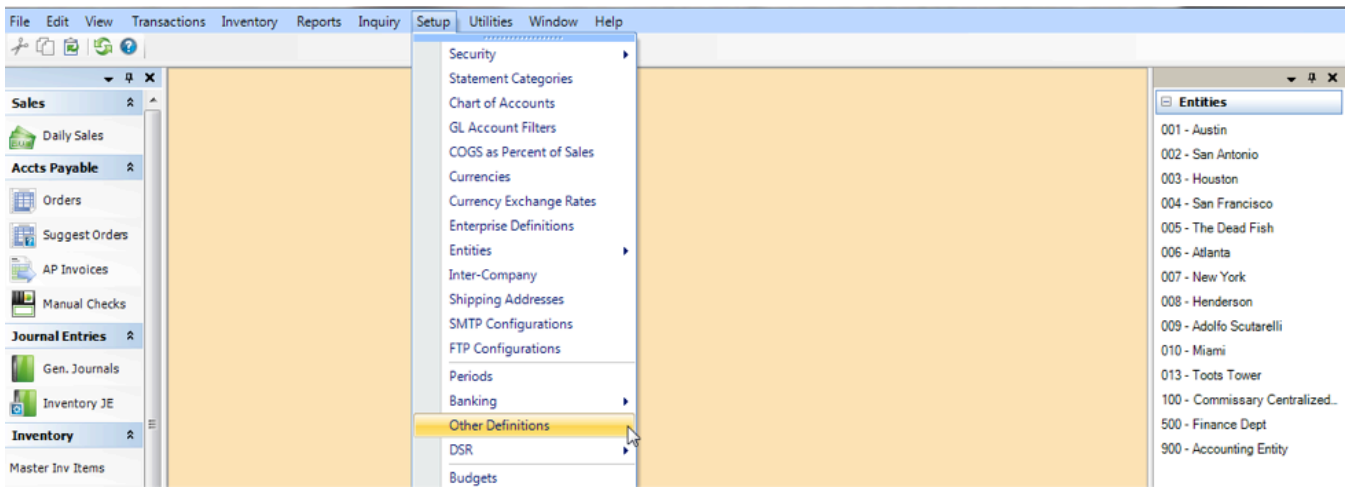

To set up Grace Periods for **AP Invoices**:

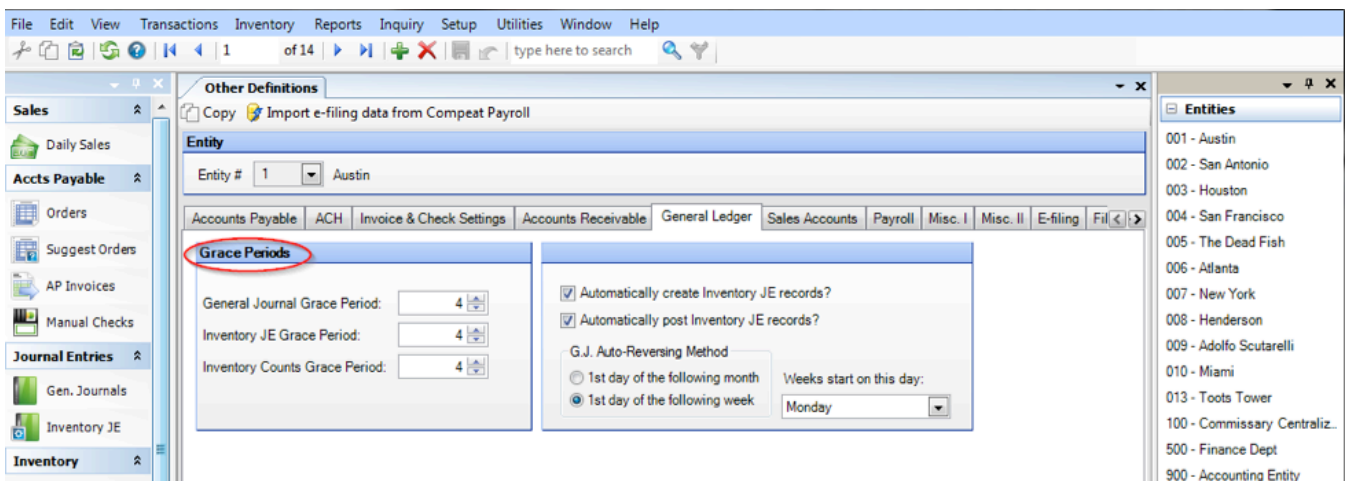

1. Go to **Setup > Other Definitions**.
2. On the **Accounts Payable** tab, set the **Grace Period** to the number of days you wish to give users.
3. **Save** your changes.

To set up Grace Periods for GL Postings and **Inventory**:

1. Go to **Setup > Other Definitions**.
2. On the **General Ledger** tab, set the **Grace Period** fields to the number of days you wish to give users.
3. **Save** your changes.

**Note:** Setting a grace period is an entity-specific security setting that will allow *any* user with posting access the ability to post within the specified number of days. “Days” indicates number of days following specific end of period date during which entries may continue to be posted without restriction.
