

# Installing the eXcellent™ Financial Functions

In order to use the eXcellent Financial Functions add-on to create custom reports that use Compeat GL transaction data you will need to install the add on. This can be downloaded from our Compeat Services website: <https://cloud.compeat.com/compeat-services/>. You will need administrator privileges on your machine in order to install the add-on. You will also need to install this add-on on every machine that will view and recalculate eXcellent Financial Reports.
