

## Inventory Counts Made Easier with the Smart Ops Update!

Entering inventory into R365 is now faster and more insightful! This update is full of enhancements to make today's inventory count the simplest part of your shift.

**Progress Bar**

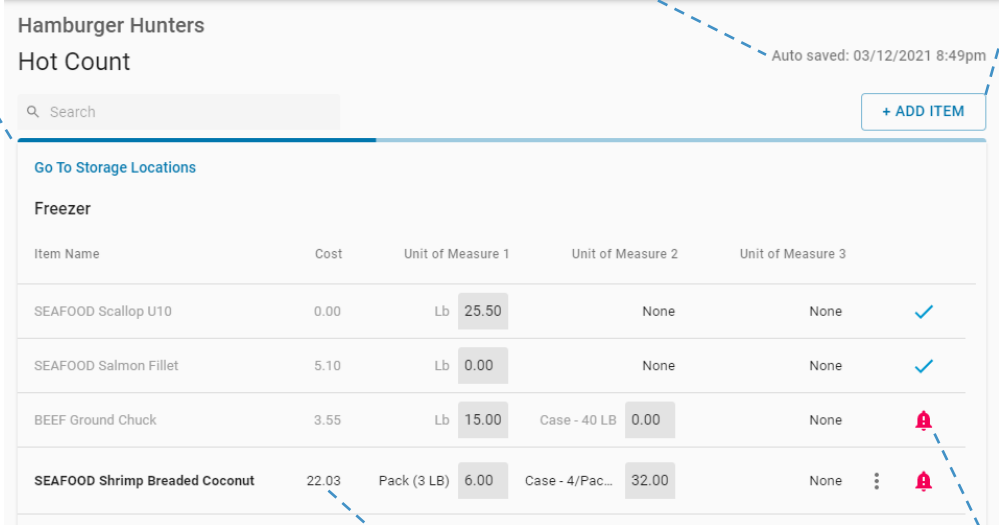

Easily see progress on count.

**Auto Save**

Counts now auto-save on mobile and web!

**Add to Template**

Add items to both count and template mid-count.

**Bulk Add**

Add whole item categories to template.

**New Complete Tool**

Managers can complete count to lock into place.

### What do I need to do?

- Download the rR365 Red App
- Review the all new R365 Academy Videos
- No edits are needed to current stock count templates. Templates will automatically port over!
